Abstract

xxx

Introduction

This section outlines the research idea. We can also cite related work here (Wickham 2014; Baumer, Kaplan, and Horton 2017).

Note that compiled term paper (the PDF) is supposed to be more text-centered than the RMarkdown documents we used in class, i.e. the text sections are more detailed and big or redundant code chunks can be hidden.

Research background

xxx

Literature review

xxx

Method

xxx

Data sources

xxx

Data collection

This section describes the data sources and the data gathering process.

A code chunk that exemplifies the data gathering process

Results

This section presents the main results.

Data exploration

The results section may have a data exploration part, but in general the structure here depends on the specific project.

What happens here depends on the specific project

What happens here depends on the specific project

Analysis

This section presents the main results, such as (for example) stats and graphs that show relationships, model results and/or clustering, PCA, etc.

What happens here depends on the specific project

What happens here depends on the specific project

What happens here depends on the specific project

Discussion

This section summarizes the results and may briefly outline advantages and limitations of the work presented.

Conclusions and implications

xxx

Limitations
